

workshop — the engaging classroom

Could You use more engagement and involvement in Your classroom? Come to this one-day workshop with one of the leading experts in active learning, Dr. Roger Greenaway.

The purpose of the workshop

The purpose of the workshop is to strengthen your competencies in facilitating learning and engaged participation in the classroom. With the tools presented in this workshop, you will facilitate and increase inclusion and learning for all students in the class. The result will be, that the quiet students will be activated, the energy of the active students will be guided, the strong students will inspire the weaker students and the fællesskab in the class will be stronger.

Themes during the day: this is how you

- Create a socially including environment that supports learning
- Facilitate appreciative and constructive group discussions
- Use teamwork and cooperation in your teaching
- Make your teaching more active, engaging and more fun
- Develop the students' self-confidence and motivation to learn.

form and curriculum

You will get the opportunity to try out and experiment with most of the techniques. Furthermore, the techniques will be presented regarding how to do them, their purpose, their strengths and weaknesses, limitations and evidence. You will receive a manual that describe all the techniques.

The workshop is intense with a lot of theory and praxis, that you will be able to implement at once. There will be time for the participants to reflect upon the methods and thereby inspire each other in how to use them in the classroom.

CSRNext is a company which

- Employs psychologists and learning theorists
- Focuses on exposed children and adolescents
- Gives 25 % of the revenue (not surplus) to projects and activities, that support exposed children and adolescents
